

Coach's Corner

February/March 2009

Brandi Maitland, Jessica Foor, Andrea Sweeney, & Devon McCarter

Podcasting is a free audio or video series- like a TV or radio show- that you can download from iTunes and play on your computer.

Here's how:

1. Open iTunes and click on the iTunes Store.
2. Click Podcasts on the left and search for one by choosing a category or by typing in the search box.
3. You can preview a podcast and/or subscribe to one.
4. If you subscribe, it will download to your iTunes. You will get the most recent episode and all future episodes. Click the Get Episode button to get past episodes.
5. To play them, click on Podcasts in your iTunes library. Click the Podcast, choose an episode, and play it.

2 great Podcasts are **Apple Quick Tips** located under technology and **Grammar Girl** located under education.

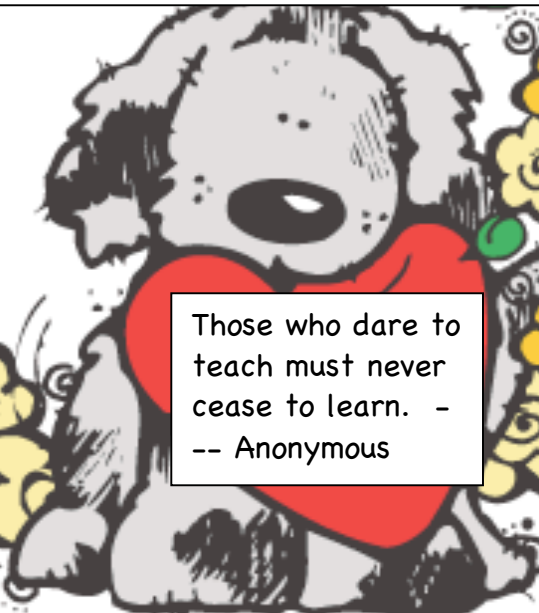

Math-Technology Integration Coaches

As a result of a new EETT grant, Vicki Aults and Ashley Beard have been hired to work with the 4th grade classes across the district. The classes have also received several technology tools to use to integrate technology into the curriculum.

Two new items under "Resources and Links" have been added to our Wikispace

(coaches4.wikispaces.com)

1. The last website listed under "Websites Related to Our Textbook/Curriculum" is beneficial for teaching reading/the Houghton-Mifflin series.
2. At the bottom there is a link to wikispaces.com and a document with directions on how to set-up your own wikispace.

Those who dare to teach must never cease to learn. -
